

Certificate of Conformity

Manufacture

All Crown Water Flow Controls are Manufactured as follows:-

Material Used

304 Grade Stainless Steel as Standard (Other materials available on request)

Plate Thickness

Generally made in 3mm thick Stainless Steel (Thicker Material to be used where necessary)

Welding

All welded seems to be continuous for maximum Strength

Rodding Access & Drain Down

Each unit is fitted with a By Pass Door, Operated from Cover Level by means of a wire rope to allow the system to drain down.

This is also used when Rodding and will give access to the downstream pipe

How Long Will they Last?

Crown Vortex Flow Controls have no moving parts to wear or fail.

Made from Stainless Steel Plate they will resist scour, degradation and chemical attack

A Crown Vortex Flow Control Should easily outlasts the sewer in which it is installed

Product is guaranteed for 120 Years

Quality Assurance

Crown Water Ltd has been assessed and approved by QMS International PLC to BS EN ISO 9001: 2008

The Approved Quality Management system applies to the provision of Flow Control Devices
